

ABOUT LIVEU

LiveU is driving the live video revolution, providing live video streaming for TV, mobile, online and social media. Let your audience become part of your story with high-quality and flawless live video, transmitted from anywhere in the world, through the use of our patented bonding and video transport technology. LiveU creates a consistent bandwidth and a reliable connection so you can acquire, manage and distribute high quality remote live broadcasts over IP.

Our broad portfolio of products sets the industry standard for live video production. From backpacks to smartphones, and satellite/cellular hybrid to external antenna solutions, LiveU offers a complete range of devices for live video coverage anytime, anywhere. In addition, LiveU offers extensive cloud-based management and video distribution solutions.

With over 2,000 customers in 80+ countries, LiveU's technology is the solution of choice for global broadcasters, online media, news agencies and social media.

GLOBAL ACQUISITION

Our award-winning field units are at the core of the LiveU ecosystem. Representing the most advanced bonded cellular technology available today, all LiveU field units are designed to make global newsgathering and event coverage easier than ever.

COMPREHENSIVE MANAGEMENT

Receiving inputs from all of the field units, the LiveU Central management platform enables full monitoring and control of the entire ecosystem via any browser-supported computer or mobile device, from anywhere around the world. LiveU Central delivers a range of powerful cloud-based value-added premium services, tailored to everyday professional video workflows.

MULTI-PLATFORM DISTRIBUTION

MultiPoint seamlessly integrates into that workflow allowing you to share incoming live feeds with multiple end-points. For online media, LiveU's live streaming solutions enable streamlined integration with leading OVPs, CDNs and social media platforms.
