

LiveU's roaming solution is designed to provide our customers with the best and most reliable roaming experience. The solution offers fully integrated hybrid roaming capabilities for hassle-free local and global operation.

LiveU's complete roaming solutions and services include:

### **Built-in Global Roaming (LU600) – Dual SIMs**

With the new dual-SIM modem configured with roaming SIMs, every LU600 can be a local and global unit without needing to replace or obtain local SIMs. The units are ready to roam instantly. Any or all SIMs can be switched to roaming at the push of a button with simple management, operated directly from the unit's user interface or remotely via LiveU Central, LiveU's unified management platform.

### **Global Modems**

LiveU global modems ensure extensive roaming coverage in over 185 countries worldwide, including two or three operators in each country. Combined with the dual-SIM support, camera crews can arrive in any of the supported countries and immediately start broadcasting. LiveU offers EU and global roaming modems with integrated LTE-Advanced coverage, tested thoroughly to ensure robust and resilient cellular connections.

*For the complete list of supported countries – please see Appendix I.*

### **Optimized Roaming Pairing – ORP (LU600)**

The ORP service provides optimized network operator pairing on roaming SIMs based on LiveU's field experience in different territories worldwide. The service assures that the modems will pair to multiple cellular operators that are available in the specific area/country to achieve the highest potential bandwidth and optimal resiliency. Manual operator selection can be done at any time, overriding automatic pairing.

## Global Network of Partners

With a global network of more than 120 partners in over 100 countries, LiveU can support you anywhere in the world. SIMs and spare parts can be provided, and technical issues instantly resolved, allowing you to focus on what you do best – content creation.

## Short-term Rentals

Don't have a LiveU roaming solution? LiveU Global Events make it simple for broadcasters to go live from high profile events around the world with turnkey service packages, including ad-hoc rentals (units, data packages etc.) and 24/7 professional support.

## LiveU Roaming Solution benefits include:

- **Global modems** for extensive coverage in over 185 countries worldwide
- **Simple SIM management** operated from the unit or remotely via LiveU Central
- **Per-SIM or Global SIM activation** any or all SIMs can be switched to roaming at the push of a button
- **Optimized roaming pairing** allocating different operators to different modems to achieve the highest potential bandwidth and optimal resiliency
- **Global LTE** advanced coverage with a single cellular modem, integrated into the LU600
